PANIC IS OFF    AUTO OFF    NOTIF IS ON

ALARM IS ON    ALL NOTIF ON    ALL NOTIF OFF

## Enable Notification on All Cameras for an AI Unit

Tap the “ALL NOTIF ON”. This will set all the Notification ON for all the cameras on the AI.

## Disable Notification on All Cameras for an AI Unit

Tap the "ALL NOTIF OFF".

This will set all the Notification OFF for all the cameras on the AI Unit being displayed.

# Enable Notification for a single Camera

Tap the "NOTIF IS OFF".

# Disable Notification for a single Camera

Tap the "NOTIF IS ON"

## Enable the Alarm on All Cameras for an AI Unit

Tap the "ALARM IS OFF".

This will enable the Alarm for all the cameras on the AI Unit being displayed.

## Disable the Alarm on All Cameras for an AI Unit

Tap the "ALARM IS ON".

This will disable the Alarm for all the cameras on the AI Unit being displayed.

## Pause the Alarm on All Cameras for an AI Unit for about 4 Minutes

Do a LONG Press on the Event Display for longer than a second, then the red “ALARM IS ON” will change to a green “ALARM PAUSED”

This will disable the Alarm for all the cameras on the AI Unit being displayed for a period for the user to walk out or drive out without triggering the alarm.
